

TESTIMONY

I am Sacdal E. Caanawan from Brgy Bayahanihan, Maria Aurora, Aurora. I am a Pastor of Born Again.

I had a mild stroke last 2004, and I am also suffering from high blood pressure and imbalance way of walking.

I tried taking the three products - one capsule of Picur in the morning, one capsule of SambaCur Plus in the afternoon and one MoringaCur Plus in the evening. In just six days of everyday intake people noticed the changes in my walking. I walk straighter now and it was amazing because I never observed that I had lesser trouble walking. Even my pressure was no longer high, before in my last check-up my blood pressure was 170/140 and there were large veins found in my arms. I also experienced dizziness but now all these symptoms just vanished. I don't feel dizzy, I have lower blood pressure, good walking stance and even the large veins in my arms are no longer visible.

The three products helped me a lot; it made my body feel lighter and better!

My only recommendation to other people especially those experiencing the same symptoms as me to just try to use the products and see for themselves how it affects their own body.
