

TESTIMONY

I am Ladislao Arandia, 57 years old from San Pablo City. I am a Business - man and a Garment Manufacturer. I was suffering from sciatic pain, a pain from the buttocks down to the thigh and lower leg to the sole. To ease the pain I take pain relievers. My wife joined the GlobalLeader and told me it might help. The Doctor advised me to undergo surgery if I cannot handle the pain anymore but since I dont want a surgery, I started taking PiCur.

When I was taking PiCur I suffered from severe pain for about a week. I continued taking PiCur and now the pain is gone. Now I can work the whole day without the pain.

Take PiCur if you are experiencing the same kind of pain.
